

Sub-processors

RSA Security LLC's Outseer business unit ("Outseer") hires vendors to provide certain services to RSA. These vendors may act as sub-processors on behalf of Outseer. Sub-processors that may process a data subject's private data ("Content") are itemized below. RSA affiliates may also process Content. As set forth in the Data Processing Addendum, Outseer has adequate data transfer mechanisms in place with each sub-processor. The lists below do not apply to pre-release versions.

	Sub-processor	Country *	Use
Product / Service			
Outseer 3-D Secure	Equinix	Billerica, MA. USA Slough, UK Amsterdam, NL	Data Center host for part of the physical infrastructure and network interconnect services needed to operate Outseer 3-D Secure.
