## What’s the right way to advance digital account takeover and fraud prevention?

Fraud prevention and account protection are mission-critical to your business.

That’s why you trust them to the **Fraud Manager platform**.

After all, it enables you to:

-  Optimize your implementation against industry benchmark KPIs
-  Learn and adapt without constantly rewriting rules
-  Tune polices to meet changing corporate objectives or market dynamics

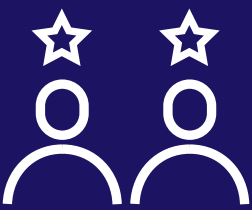

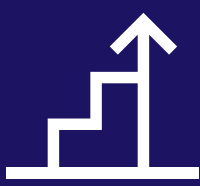

### ADD IT UP, AND IT’S A PLATFORM THAT JUST WORKS.

But we can achieve even better results.

### Protect more with what you have

By taking immediate, practical steps now, you can get more value out of the Fraud Manager platform going forward.

For example, you can do this by:

-  Working with our **Fraud Advisors and Customer Success team** to optimize your implementation against industry benchmarks
-  Reporting **more account takeover and fraud data** to add more intelligence to the risk engine and drive up model performance rates
-  Expanding to a **wider set of use cases**, like mobile apps, digital payments, and transfers

These are just a few examples of how we can partner to ensure world-class fraud protection.

Let’s connect to prioritize the steps you can take to do more with Fraud Manager.
